Report for the third quarter 2018

Norwegian Finans Holding ASA

Letter from the CEO

Economic outlook for the Nordic region and key factors for the bank's development remain favorable. GDP growth and employment levels are favorable while interest rates remain at low levels with a slight upward trend. All four markets where Bank Norwegian operate experience a regulatory focus on the financial industry, although there are no substantial new initiatives this quarter.

The third quarter reflects a satisfactory underlying performance based on increased net interest income and strong cost control. The development in performance is satisfying when adjusting for non-recurring items in the previous quarter and a correction in the ECL models for Finland. The latter reflects the complexity of building expert models for loan portfolios in newly entered markets and does not indicate a shift in portfolio quality.

We recruited 71,000 new customers in the quarter and the strong trend of increased engagement continues as App usage increased by 25%. The mobile channel is now by far the most used channel of communication with our customers and the ambition is to develop an increasingly personalized customer experience.

The Nordic market for personal loans and savings is attractive and continues to attract competition from incumbent financial institutions, smaller niche banks and fintech entrants. Bank Norwegian's robust profitability and solid balance sheet, combined with lean operations provides a favorable competitive position. Continuously refining our core business to offer the most innovative and competitive services with an optimal risk-based pricing will still be the priority going forward.

Attractive customer journeys, a high degree of personalization and trust will be key to the success for providers of financial services as PSD2 regulations are being implemented. Bank Norwegian is uniquely positioned to deliver on the customers' expectations and our scale and frequent customer interaction will allow us to successfully compete for the customers' attention in an open banking environment.

1

Bærum, October 29, 2018

Tine Wollebekk

CEO

Norwegian Finans Holding ASA Report for the third quarter 2018

Norwegian Finans Holding ASA (NFH) owns 100% of the shares in Bank Norwegian AS. The company does not engage in any other operations. The ownership of Norwegian Finans Holding ASA is divided between institutional and private investors in Norway and abroad, of which Norwegian Air Shuttle ASA is the largest owner with a stake of 16.4% at the end of the third quarter 2018. Norwegian Finans Holding ASA is listed on the Oslo Stock Exchange with the ticker code NOFI.

Bank Norwegian started its operations in November 2007 and offers instalment loans, credit cards and deposit accounts to retail customers distributed through the Internet in the Nordic market. Bank Norwegian offers, in cooperation with the airline Norwegian, a combined credit card and reward card. The bank started operations in Sweden in May 2013. In December 2015 the bank launched operations in Denmark and Finland, where it initially offered instalment loans and deposit accounts. Credit cards were launched in June 2016.

Bank Norwegian is a digital bank that offers simple and competitive products to the retail market. The strategy is based on leading digital solutions, synergies with the airline Norwegian, attractive terms for our customers, cost-effective operations and effective risk selection.

At the end of the third quarter 2018 the NFH Group had a customer base of 1,463,800 customers, which can be broken down into 1,070,800 credit card customers, 195,100 instalment loan customers and 197,900 deposit customers.

Profit and loss as of September 30, 2018

The NFH Group's comprehensive income amounted to MNOK 1,327.5 as of September 30, 2018, compared with MNOK 1,162.3 for the same period in 2017. Net interest income totalled MNOK 3,246.5, net other operating income amounted to MNOK 203.5, while total operating expenses were MNOK 937.1. Provisions for loan losses were MNOK 742.8.

Profit and loss for the third quarter 2018

The NFH Group's comprehensive income amounted to MNOK 434.1 compared with MNOK 482.8 in the second quarter 2018. Annual return on equity was 27.8%, compared with 33.4% in the second quarter. The return on assets was 3.5%, compared with 4.2% in the second quarter.

Net interest income amounted to MNOK 1,126.1, an increase of MNOK 34.3 from the second quarter. The increase is mainly explained by loan growth. The net interest margin was 9.1%, compared with 9.4% in the second quarter.

Net other operating income amounted to MNOK 69.1 compared with MNOK 94.1 in the second quarter. Net commission income decreased MNOK 15.1 to MNOK 57.9 mainly due to network and insurance incentives in the second quarter. Net gain on securities and currency amounted to MNOK 11.1, compared with a net gain of MNOK 21.1 in the second quarter. Gains on currency and

shares exceeded negative change in value on fixed income securities in both the second and third quarter.

Total operating expenses amounted to MNOK 317.2 compared with MNOK 307.4 in the second quarter. Personnel expenses increased MNOK 6.1 mainly due to seasonal accrual effect in the second quarter. Administrative expenses increased by MNOK 3.3 mainly due to increased sales provision expenses. Depreciation decreased MNOK 0.2. Other operating expenses increased MNOK 0.7.

The NFH Group's provisions for loan losses were MNOK 299.2, an increase of MNOK 64.5 from the second quarter. Provisions in the third quarter equalled 3.1% of average gross loans, compared with 2.6% in the second quarter. The increased provisions are mainly due to normalized provisioning in Sweden after a reversal of provisions in the second quarter. In addition, following the discretionary provision in Finland in the second quarter, the NFH Group is allowing for a similar provision level in the third quarter to account for an expected credit loss model correction. Provision levels in Norway were stable, while provisions in Denmark fell.

Gross delinquent loans were MNOK 4,454, compared with MNOK 3,785 at the end of the second quarter. Delinquent loans accounted for 11.6% of gross loans, compared with 10.3% at the end of the second quarter. Gross non-performing loans accounted for 9.2% of gross loans, compared with 8.1% as of 30.6.2018. The level of non-performing loans is developing as expected considering the unseasoned portfolios in Denmark and Finland, and the portfolios in Norway and Sweden are increasing from a low base following the sale of non-performing loan portfolios in 2017.

Balance sheet as of September 30, 2018

Total assets increased MNOK 2,240 in the quarter and amounted to MNOK 49,790.

Net loans to customers increased MNOK 1,282 compared with MNOK 1,621 in the previous quarter and totalled MNOK 36,717. Instalment loan growth was stable, whereas credit card loan growth fell due to cut-off effects. Instalment loans amounted to MNOK 27,459 and credit card loans amounted to MNOK 10.995.

Customer deposits increased MNOK 1,653 compared with MNOK 1,917 in the second quarter and amounted to MNOK 39,359 at the end of the third quarter.

Liquid assets increased MNOK 937 and amounted to MNOK 12,716, equivalent to 25.5% of total assets.

Total equity amounted to MNOK 7,082, compared with MNOK 6,655 as of 30.6.2018. The total capital ratio was 21.6%, the core capital ratio was 20.2% and the common equity tier 1 ratio was 18.4%.

There has been a limited review of the accounts as of 30.9.2018, and the full result is added to retained earnings.

Outlook for the remaining of the year

The positive economic trends in the Nordic markets where the NFH Group operates continues. The Norwegian economy continues to show positive signals. The labor market in Sweden is still strong and housing market is stabilizing. The Danish and Finnish economies show moderate growth and an improved labor market.

The interest rate levels in the countries where the NFH Group is represented are anticipated to remain low, although higher interest rates are expected going forward. The NFH Group is still expected to benefit from the interest rate level through low funding costs.

The earnings growth is expected to continue through strong loan growth, stable margins, cost control and good credit quality, even though the Nordic market for unsecured credit is impacted by increased competition. Increased competition is expected to lead to higher customer acquisition cost, margin pressure or lower growth. Increased run-off in line with a growing portfolio is also expected to affect future loan growth.

The NFH Group has a broad Nordic platform and loan volumes are growing faster outside of Norway. The NFH Group has therefore a diversified risk in relation to the individual markets.

A high deposit to loans ratio and good access to the securities market are expected to maintain the NFH Group's strong liquidity position. The NFH Group lowered deposit rates in Finland effective October 1, lowering funding costs and at the same time offering competitive deposit rates.

The investment portfolio has provided a satisfactory return. The portfolio's low risk mandate will remain.

The credit quality of the loan portfolios in all markets are expected to exhibit a stable development going forward.

The correction to the expected credit loss model in Finland, with the associated higher provision in the third quarter, has brought allowance levels in line with expected credit losses. A normalized provision level is expected for Finland going forward.

The NFH Group strengthened its capital position further in the beginning of the fourth quarter by issuing MNOK 125 in additional tier 1 capital and MSEK 550 in tier 2 capital.

Common equity tier 1 ratio was 18.4% at the reporting date and exceeds the current minimum common equity tier 1 ratio requirement of 15.5% with a wide margin. The NFH Group aims to maintain a good margin to the minimum capital adequacy requirements.

The current capital base and internal generation of capital are considered more than sufficient to ensure the NFH Group's growth ambitions.

Target capital ratios, share buy backs and dividends are under review pending regulatory dialog. The Financial Supervisory Authority of Norway has proposed amendment to Financial Institutions Act to disallow quarterly dividends.

Subsequent events

Bank Norwegian AS has entered into an agreement with Axactor to transfer a portfolio of non-performing loans in Finland with an outstanding balance of approximately MEUR 160. The transaction is estimated to close November 30, 2018 and is expected to have an immaterial earnings impact. The transaction will yield cost savings and eliminates uncertainty regarding the recovery of outstanding claims.

Notes

Note 1. General accounting principles

The interim report for the third quarter 2018 is prepared according to International Financial Reporting Standards as adopted by the European Union, hereunder *IAS 34 Interim Financial Reporting*. The interim report for the third quarter 2018 is prepared according to the Norwegian Ministry of Finance's regulations on annual accounts, Section 1-6, on the use of IFRS.

Accounting standards which have been implemented in 2018

IFRS 9 - Financial Instruments

IASB has published the final version of IFRS 9 Financial Instruments, which replaced IAS 39 Financial Instruments – Recognition and Measurement. IFRS 9 introduced changes to the rules for the classification and measurement of financial instruments, impairment of financial assets and hedge accounting. The standard is effective for annual reporting periods beginning on 1.1.2018 or later. Earlier application is permitted. The standard must be applied retrospectively, except for hedge accounting. Restatement of comparative figures is not required.

The rules for classification and measurement of financial assets under IFRS 9 are more principle-based than the rules under IAS 39. Under IFRS 9, financial assets are assessed based on the entity's business model and the asset's cash flows. The NFH Group has made an assessment of the balance sheet with regards to classification and measurement of financial assets. The NFH Group has reclassified *Assets available for sale* to *Shares and other securities*. The classification and measurement of the NFH Group's financial liabilities have not been affected by the transition to IFRS 9.

Assets available for sale, which consist of the NFH Group's ownership interest in VN Norge AS, formerly known as Visa Norge FLI, was under IAS 39 classified at fair value through other comprehensive income (with reclassification). TFollowing the implementation of IFRS 9 the asset is classified at fair value through profit and loss. For further details, see note 3.

IFRS 9 requires write-downs on loans to be calculated using different assumptions about future development of credit losses. The NFH Group has made calculations of losses under IFRS 9 based on a base, upper and lower scenario. The calculations at 31.12.17 show a reduction of write-downs of NOK 55 million after tax compared to write-downs under IAS 39. The decreased in write-downs has been booked as a change in equity as per 1.1.2018, and increased *Loans to customers*.

In connection with the introduction of IFRS 9, an amendment to IAS 1, par. 82 (a) was made that applies to accounting periods beginning on or after 1.1.2018. According to this change, interest income calculated using the effective interest rate method (financial assets measured at amortized cost or at fair value through comprehensive income) shall be presented separately in the income statement. The NFH Group has classified Cash and deposits with the central bank, Loans and deposits with credit institutions and Loans to customers at amortized cost. Interest income calculated using the effective interest method is presented separately in the income statement. Comparative figures are presented accordingly.

IFRS 15 - Revenue from Contracts with Customers

The NFH Group has applied IFRS 15 Revenues from contracts with customers with effect from 1.1.2018. The implementation has not led to significant changes in the NFH Group's accounting policies.

Norwegian Finans Holding ASA received a group contribution of NOK 247.5 million from its subsidiary Bank Norwegian AS in the second quarter.

Note 2. Segments

The profit and loss and balance sheet presentation for segments are based on internal financial reporting as it is reported to the NFH Group's management. The figures are based on the NFH Group's governance model and accounting principles.

Note 3.2. Economical variables used to measure expected credit loss

The NFH Group has chosen to disclose the three most important modeling variables in each individual country. The variables differ between countries. The following macro-economic variables are used in the models: real interest rate in absolute terms, 3-month interbank rate, unemployment level in thousands, hourly pay in NOK, aggregated monthly consumption for the entire population measured in millions in local currency, and unemployment rate in percentage of the total labor force. The data is modeled accross three scenarios: a base, an upper and a lower case for expected credit loss. The model is based on the NiGEM-model developed by UK's Institute of Economic and Social Research.

The following weights has been used across all portfolios per 30.9.18:

- Base scenario for expected credit loss: 40%
- Upper scenario for expected credit loss: 30%
- Lower scenario for expected credit loss: 30%

Norway			2019	2020	2021	2022	2023

Note 3.3. Significant increase in credit risk

Probability of default (PD) is an experience-based probability that a commitment is in breach for more than 90 days in the next twelve months. The tables below show the different trigger levels that need to be in place for a commitment to be classified in Stage 2 due to a significant increase in credit risk. A significant increase in credit risk is assessed on the basis of several criteria, including late payment beyond 30 days after maturity. The most important factor for the assessment is a comparison between the original probability of default and the probability of default at the reporting date. Each product has its own threshold values when one considers an increase to be significant. Products with absolute low application PDs therefore lead to high trigger requirements, as they are relative and come from a low level.

Norway	Original PD	Instalment loans	Original PD	Credit card loans

Analysis of the ECL-levels for both the Finnish portfolios unveiled an underprovisioning for the first six months of 2018 due to a model flaw. A correction of the model in the third quarter reflects the aggregated ECL-levels for the year, as a one-off adjustment. The underlying credit quality of the portfolio has not changed, in line with expectations, where the overall level of ECL is now on par with both model expectations, comparable to the bank's other portfolios, as well as with the local experience with loss recovery.

Loan loss allowance as at 30.9.18	17,366	45,992	46,409	109,768
Loan loss provisions and guarantees	-	-	-	-

The loan loss allowance is calculated based on the expected credit loss (ECL) using the 3-stage method as described in note 2.1 of the Annual Report 2017.

Migration out of one stage is calculated at opening date 30.6.18, while migration into one stage is calculated at the closing date 30.9.18.

Amounts in NOK 1000	Stage 1	Stage 2	Stage 3	Total
Gross loans to customers as at 30.6.18	846,275	583,779	156,006	1,586,060
Transfers:				
Transfers between Stage 1 and Stage 2	-135,096	160,496	-	25,401
Transfers between Stage 1 and Stage 3	-328	-	327	-1
Transfers between Stage 2 and Stage 1	61,620	-63,970	-	-2,350
Transfers between Stage 2 and Stage 3	-	-43,386	43,440	54
Transfers between Stage 3 and Stage 2	-	3,207	-4,937	-1,731
Transfers between Stage 3 and Stage 1	271	-	-824	-553
New financial assets issued or purchased	55,420	6,152	-	61,571
Financial assets derecognized in the period	-552	-874	211	-1,215
Modification of contractual cash flows from non-discounted financial assets	78,983	-10,838	-1,760	66,384
Gross loans to customers as at 30.9.18	906,594	634,565	192,461	1,733,620

Note 6. Loan loss provisions and guarantees

The NFH Group has no guarantees as of 30.9.18.

Amounts in NOK 1000	YTD 2018	YTD 2017	2017
Realized losses in the period	25,320	10,253	16,325
Individual write-downs on loans including gains/losses from sale of NPL portfolios	-	119,474	172,838
Write-downs - lifetime expected credit loss (stage 3)	595,497	-	-
Net individual write-downs on loans	620,817	129,727	189,163
The period's change in write-downs on groups of loans including gains/losses from sale of NPL portfolios	-	343,552	483,226
Write-downs - 12 months expected credit loss (stage 1)	29,649	-	-

Note 8. Liquidity risk

The liquidity risk is the risk that the NFH Group is not capable of covering all its financial obligations as they fall due. The liquidity risk is evaluated as low at the time of this report, since a large portion of the NFH Group's assets consists of easily transferable securities. The asset side is financed by core deposits from the retail market, debt securities and subordinated capital. The NFH Group manages its liquidity position by short-term cash flow forecasts and liquidity due date summaries.

The Liquidity Coverage Ratio (LCR) is defined as the NFH Group's liquid assets relative to net liquidity output 30 days forward in time in any given stress situation. At 30.9.18 the liquidity reserve (LCR) on total level for the NFH Group was 225% (compared to 187% per 30.9.17). The NFH Group has significant positions in Norwegian, Swedish and Danish kroner in addition to Euro. At 30.9.18 the LCR was 372% in Norwegian kroner (compared to 215% per 30.9.17), 164% in Swedish kroner (compared to 148% per 30.9.17), 158% Danish kroner (compared to 170% per 30.9.17) and 156% in Euro (compared to 88% per 30.9.17). The legal requirement for liquidity reserve at total level and for significant currencies is 100% at 30.9.18, except for Norwegian kroner where the legal requirement is 50%.

Note 9. Loans and deposits with credit institutions and central banks

Note 15. Financial instruments at fair value

Financial instruments at fair value is measured at different levels.

Level 1 Valuation based on quoted prices in an active market

Financial instruments in level 1 are determined based on quoted prices in active markets for identical financial instruments available on the balance sheet date.

Level 2 Valuation based on observable market data

Financial instruments in level 2 are determined based on inputs other than quoted prices, but where prices are observable either directly or indirectly. These include quoted prices in markets that are not active.

Level 3 Valuation based on non-observable market data

When valuation can not be determined in level 1 or 2, valuation methods based on non-observable market data are used.

Ownership in VN Norge AS

Ownership in VN Norge AS, formerly known as Visa Norge FLI, is considered to be a financial asset and is classified as *Share and other securities*. The fair value of the asset is estimated at NOK 38.2 million as of 30.9.18. The calculation is based on input from VN Norge AS.

Shares in BankID Norge AS

Bank Norwegian AS was at 12.8.14 issued 280 shares in BankID Norge AS based on the bank's share of participation in the BankID association. Value of shares are estimated at the going rate at the time granted.

Note 16. Fair value of financial instruments at amortized cost

Financial instruments at amortized cost are valued at originally determined cash flows, adjusted for any impairment losses. Amortized cost will not always give values that match the market's assessment of the same instruments. This may be due to different perceptions of market conditions, risk and return requirements.

Loans and deposits with central banks and credit institutions and deposits from customers Fair value is estimated to conform with amortized cost.

Loans to customers

Loans to customers are exposed to market competition. This means that the potential added value of the loan portfolio will not be maintained over time. Further, provisions for loan losses are provided for on an ongoing basis. The fair value of loans to customers is therefore considered to conform to the amortized cost.

Debt securities issued and subordinated loan

The fair value of debt securities issued and subordinated loan are based on observable market data where available.

Fair value of financial instruments at amortized cost

Note 18. Financial Assets at fair value through profit and loss

The NFH Group is a member of VN Norge AS formerly know as, Visa Norge FLI ("Visa Norge"), being a shareholder of Visa Europe Ltd. On November 2 2015, an agreement between Visa Europe Ltd. and Visa Inc. was announced where Visa Inc. acquires all shares in Visa Europe Ltd. This transaction consists of a cash consideration, convertible preference shares and a deferred cash consideration paid three years after completion of the transaction. The process was finalized in June 2016 and the NFH Group has in this connection received its share of the cash consideration based on the NFH Group's stake in Visa Norge. In 2018, the NFH Group has reclassified Assets available for sale in accordance with IFRS 9 and changes in fair value are recognized through profit or loss.

Note 23. Lease agreements

The NFH Group is sharing premises with Norwegian Air Shuttle ASA. A temporary lease agreement has been signed for Snarøyveien 36, Fornebu. The temporary lease agreement expires October 28, 2019. A lease agreement for the same address has been established with Akastor and Norwegian Property, which expires in October 2021 with an option to extend the lease agreement for two additional years. The annual rent totals NOK 2.5 million.

Note 24. Related parties

Bank Norwegian AS and Norwegian Air Shuttle ASA have since October 2007 had an agreement regarding the bank's use of the brand name Norwegian, IP-rights and co-operation regarding the loyalty program and credit cards. Based on the bank's expansion into Sweden, Denmark and Finland, new agreements have been renegotiated. All accrued rights remain. The agreements were renegotiated in the second quarter 2018.

Norwegian Finans Holding ASA (org. number 991 281 924) owns 100% of Bank Norwegian AS (org. number 991 455 671).

Note 25. Subsequent events

Bank Norwegian has entered into an agreement with Axactor to transfer a portfolio of non-performing loans in Finland with an outstanding balance of approximately EUR 160 million. The transaction is estimated to close November 30, 2018 and is expected to have an immaterial earnings impact. The transaction will yield cost savings and eliminates uncertainty regarding the recovery of outstanding claims

Notes for Norwegian Finans Holding ASA

Note 1. General accounting principles

The interim report for the third quarter 2018 is prepared according to International Financial Reporting Standards as adopted by the European Union, hereunder *IAS 34 Interim Financial Reporting*. The interim report for the third quarter 2018 is prepared using the same accounting principles and calculation methods as described in the Annual Report 2017, and should be read in conjunction with this.

The shares held by Norwegian Finans Holding ASA consitutes 100 % of the ownership in Bank Norwegian AS. The shares is recognised at cost, and eliminated in the group accounts.

IASB has published the final version of IFRS 9 Financial Instruments, which will replace IAS 39 Financial Instruments – Recognition and Measurement. IFRS 9 introduces changes to the rules for the classification and measurement of financial instruments, impairment of financial assets and hedge accounting. The standard is effective for annual reporting periods beginning on1.1.2018 or later. Earlier application is permitted. The standard must be applied retrospectively, except for hedge accounting. Restatement of comparative figures is not required.

In connection with the introduction of IFRS 9, an amendment to IAS 1, par. 82 (a) was made that applies to accounting periods beginning on or after 1.1.2018. According to this change, interest income calculated using the effective interest rate method (financial assets measured at amortized cost or at fair value through comprehensive income) shall be presented separately in the income statement. The NFH Group has classified Cash and deposits with the central bank, Loans and deposits with credit institutions and Loans to customers at amortized cost. Interest income calculated using the effective interest method is presented separately in the income statement. Comparative figures are presented accordingly.
